

WATER TANKS & HOLDING TANKS

Water tanks and holding tanks are processed on our site using a rotational molding machine. With this form of construction, the tanks will have NO SEAMS! The materials used are NSF & FDA approved polyethene. Each water and holding tank is tested before it leaves our shop to ensure there are no leaks. If you do not see a tank in our catalog, we can manufacture custom molds. However, due to the cost of building the mold, special tanks are costly, but available.

All fittings are installed using spin welding. This technique insures that the fitting and the tank mold together creating a long lasting, water tight seal.

How to order:

1. Choose the tank by number
2. Choose the fittings
3. Fax the order form on the following page to 303-423-4051

*All capacities shown are approximate.

TANK FITTINGS FEATURING SEA TECH SERIES 24

SEA TECH 24 SERIES QUICK CONNECTS

Sea Tech connectors utilize a swivel nut with NPS straight threads and a cone seal. This allows the installer to thread onto NPT, NPS, BSP, and most threads without tools or thread sealant. Simply thread on, hand tight, for a zero leak seal.

Sea Tech 24 Series quick connect products are produced from FDA approved materials, certified and approved to NSF-61 standards and are suitable for contact with drinking water. 24 series products are designed and manufactured in a bright white thermal plastic and are applicable for many applications such as water plumbing, car wash, water filtration, aquariums, and many others. 24 Series fittings are produced in standard imperial inch sizes and interconnect with all Sea Tech 35 Series Connections. Sea Tech 24 Series fittings directly connect to a variety of plastic, copper, and CPVC piping. Sea Tech connectors utilize a swivel nut with NPS straight threads and a cone seal. This allows the installer to thread onto NPT, NPS, BSP, and most threads without tools or thread sealant. Simply cut the piping and snap a Sea Tech quick connect fitting in place for a leak free connection.

SPIN WELDED TANK FITTINGS

The fittings below are all spin welded into the plastic tanks per customer specifications. There are a variety of fittings to choose from to fit your needs. Just fill out the form with placement of the fittings and fax it back to us.

	<p>FPT Flush Fittings</p> <p>These fittings are designed to be flush to the tank, the threads are on the inside of the tank and are ideal for shipping purposes. They are available in 1/2", 3/4", 1", 1-1/4" 1-1/2", 2", and 3".</p>	<p>ORDER NUMBERS: 11025-1/2" FPT FLUSH FITTING 11035-3/4" FPT FLUSH FITTING -1" FPT FLUSH FITTING 11045-1-1/4" FPT FLUSH FITTING 11055-1-1/2" FPT FLUSH FITTING 11065-2" FPT FLUSH FITTING 11075-3" FPT FLUSH FITTING</p>
	<p>FPT Raised Fittings</p> <p>These fittings have the threads on the outside of the tank and provide better drainage of water. Fittings are available in 1/2", 3/4", 1", 1-1/4" 1-1/2", 2" and 3".</p>	<p>ORDER NUMBERS: 11020-1/2" FPT RAISED FITTING 11030-3/4" FPT RAISED FITTING 10037-1" FPT RAISED FITTING 11040-1-1/4" FPT RAISED FITTING 11050-1-1/2" FPT RAISED FITTING 11060-2" FPT RAISED FITTING 10070-3" FPT RAISED FITTING</p>
